Re: Proposed Resolution for Developing a Strategy for Regulation of Managed Wetlands

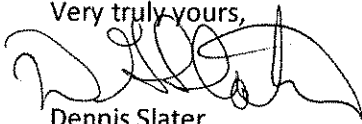

Dear Ms. Fregien,

The Tulare Basin Wetlands Association (TBWA) wishes to express our approval of, and support for, the Proposed Resolution as a whole, and specifically for removal of the Tulare Basin managed wetlands from the Irrigated Lands Regulatory Program (ILRP).

Please include this letter in your file relevant to the Public Hearing you are conducting on this matter on August 18 & 19.

The members and supporters of the TBWA appreciate the hard work put into the Proposed Resolution and commit to continuing our constructive cooperation on developing a long-term regulatory strategy for managed wetlands.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Dennis Slater', written over a horizontal line.
